John Lalli is a Panel Expert at New Jersey Technology Council (NJTC) Data Summit & Expo

Blue Hill Data Services™ Managing Director and Chief Operating Officer, John Lalli, was pleased to participate on the executive panel at the NJTC Data Summit & Expo: “What’s Best for My Data: Wholesale? Colocation? Managed Services? Cloud?” was presented during this summit in Eatontown, NJ on December 12, 2013.

“As a part of our continuing interest to participate in regional data center focus groups, it was a pleasure supporting the NJTC’s Data Summit”, said John Lalli. “It’s important to provide thought leadership in our growing industry, to help local small businesses learn more about maintaining their data assets as cost effectively as possible, while minimizing risk.”

The Data Summit brings together data center infrastructure and operations IT professionals, and those responsible for business continuity and disaster recovery with senior business and technology leaders who recommend business intelligence and analytical systems and solutions that run against large and complex data sets in finance and healthcare.

The day opened with a plenary networking session, breakfast and keynote address. Participants had the opportunity to attend thought leadership seminars/roundtables/discussions developed specifically for their network. Tentative areas of interest included:

DATA CENTER INFRASTRUCTURE AND OPERATIONS

- Data center Market Overview
- Key Factors in Selecting Facilities – Power Panel
- Innovations in Data Center Construction & DCIM
- What’s Best for My Data: Wholesale? Colocation? Managed Service? Cloud?

BIG DATA BUSINESS INTELLIGENCE AND ANALYTICAL SYSTEMS AND SOLUTIONS

- The Big View of Big Data
- Finding Opportunities in the Intersection of Education, Business and Big Data
- Healthcare/Life Sciences and Big Data: A Look Back From 5 Years Ahead
- Financial Services and Big Data Lessons from Cutting Edge
